An in depth discovery and truth telling concerning the contrast of the example of Jesus Christ's life and what it should mean (in this author's opinion) to the Christian Church. How Jesus was an Apostate. A scriptural based interpretation of why the signs and symptoms people should look for as preclusion to the second coming are not what The Christian Church (all inclusive) are looking for, and are indeed going to have the signature identity of something of grand apostasy; something or someone which The Body would indeed reject by judgement of their popular and widely accepted, taught, and practiced interpretation of the Holy Bible. Concerning the true identity and secrets of the movements of the AntiChrist.

This piece of work is underway. Look For It.
